

대한임상미생물학회 21차 학술대회

21st General Meeting The Korean Society of Clinical Microbiology
Current Issues and Future Strategies of Antimicrobial Resistance

2018.7.5-6 (Thu-Fri)

부산 해운대 그랜드 호텔

Time	Topic	Speaker		
2018.7.5 (Thu)	08:00-08:50	Registration		
	08:50-09:00	Opening		
	Kor-GLASS Symposium: National Surveillance System for Antimicrobial Resistance and GLASS in Asian Region			
	09:00-10:00	Session 1: First results of WHO GLASS and Korean GLASS	Chair: Youngmee Ji	
		Current status of GLASS and first results during 2016 and 2017	Sergey Eremin	
	10:00-10:30	Antimicrobial resistance of major clinical pathogens in South Korea during May 2016 and April 2017: first one-year report from Kor-GLASS	Hyukmin Lee (Yonsei University)	
		Coffee Break/Exhibition		
	10:30-11:45	Session 2: AMR surveillance systems in Asian countries	Chair: Kyungwon Lee, Jong Hee Shin	
		Current situation of AMR and surveillance system in China	Yang Zhang	
		Current situation of AMR and surveillance system in Mongolia	Odgerel Tundev	
Current situation of AMR and surveillance system in Laos		Bouakham Vannachone		
11:45-12:30	Session 3: Further application of results derived from AMR	Chair: Seok Hoon Jeong		
	Strategy for accurate results and EQA program for AMR surveillance	Kyung Un Park (Seoul University)		
12:30-13:10	AMR surveillance for One Health in Korea	Kwang-Jun Lee (NIH)		
	Luncheon Symposium I: BD	좌장: 정석훈 (연세의대)		
13:10-15:10	Phoenix M50를 이용한 Emerging AMR panel의 성능 평가 -CPO 검출 및 Colistin 내성 검출	김도균 (연세의대)		
	Symposium I: Current Issues of Antimicrobial Resistance			
	Current issue of MDR TB	김창기 (서울의과학연구소)		
	Linezolid-resistant MRSA and VRE	이재현 (전북의대)		
	Antiviral agents resistance in HBV and HCV	허 정 (부산의대)		
15:10-15:30	Emerging MDR fungi	신종희 (전남의대)		
	Coffee Break/Exhibition			
15:30-17:00	Symposium II (Joint Symposium of KSCM and JSCM)			
	Proteomics approach to identify the specific proteins of multiple drug-resistant <i>E. coli</i> ST131 by MALDI-TOF MS	Akihiro Nakamura (Tenri Health Care University)		
	Bacterial Isolates from Blood of Companion Animals in Japan: Focused on Extended-spectrum β -lactamase-producing <i>E. coli</i> & Methicillin-resistant <i>S. intermedius</i> group	Takashi Takahashi (Kitasato University)		
	Spread of carbapenemase-producing <i>Enterobacteriaceae</i> in South Korea	윤은정 (연세의대)		
17:00-17:20	Photo			
17:20-18:10	Oral Presentation I (English)			
18:10-18:40	Poster Presentation			
18:40-21:00	Welcome Dinner			
2018.7.6 (Fri)	08:00-09:00	Industry Workshop		
	09:00-10:40	Oral Presentation II		
	10:40-11:00	Coffee Break/Exhibition		
	11:00-12:00	Special Lecture MCR-the emerging bacterial resistance common to humans and animals	Yang Wang (China Agricultural University)	
	12:00-13:00	Lunch		
	13:00-15:00	Symposium III: Future Strategies for Antimicrobial Resistance Control		
		Management of reservoir of antimicrobial resistance genes : Animals, Water & Soil	배현주 (한양의대)	
		Rapid antimicrobial susceptibility testing	김택수 (서울의대)	
		Rapid molecular detection of antimicrobial resistant genes	허희재 (성균관의대)	
	15:00-15:30	Developing alternative strategies that clinical microbiology can provide	용동은 (연세의대)	
Closing (총회, 시상 및 폐회)
