

# 2022년 제 12차 대한임상미생물학회 심포지엄

The 12<sup>th</sup> Symposium  
The Korean Society of Clinical Microbiology

## **Fighting Antimicrobial Resistance in the Era of Pandemic**

### Concurrent threat in the era of COVID-19 pandemic

Mycobacterial infection

Jeong Su Park (Seoul National University)

Influenza and other respiratory virus

Young Jin Kim (Kyung Hee University)

Epidemiology of pathogenic bacteria

Hae-Sun Chung (Ewha Womans University)

### Focus lecture (English session)

Trends in AMR during the COVID-19 pandemic in Japan

Keigo Shibayama (Nagoya University)

Trends in AMR during the COVID-19 pandemic in Korea

Seri Jeong (Hallym University)

### Luncheon symposium

Current status of SARS-CoV-2 variant

Jee-Soo Lee (Seoul National University)

### Young investigator awards' lecture

Laboratory tests for antimicrobial resistance: old and new

Hee Jae Huh (Sungkyunkwan University)

Antifungal resistance status and mechanisms of fungal infection in Korea

Eun Jeong Won (Chonnam National University)

### Plenary lecture (English session)

EUCAST: an internationally accepted system for antimicrobial susceptibility testing

Gunnar Kahlmeter (Linnaeus University Sweden)

### Infection control lesson learned from COVID-19 pandemic

Changes in antibiotic use in COVID-19 pandemic

Sukhyun Ryu (Konyang University)

Laboratory response to community influx of COVID-19

Sunggyun Park (Keimyung University)

Healthcare-associated infection control in COVID-19 era

Sung Han Kim (University of Ulsan)

Hand hygiene in COVID-19 era

Jeong Hwa Choi (Konkuk University Medical Center)

Panel discussion

- 대한의사협회 연수교육 6시간, 대한진단검사의학회 책임전문의 1평점, 대한임상병리사협회 보수교육 1시간 (감염관리연수강좌와 합산 불가)
- 사전등록 2021.12.27.-2022.2.6. | 대한임상미생물학회 홈페이지 <http://kscm.or.kr>

2022.2.18(금) 이화여자대학교 의과대학 계림홀
