

Information for Visitors to Korea via the Travel Bubble

- **Pleased be informed that persons who received full vaccination for COVID-19 in the Republic of Singapore (ROS) entering the Republic of Korea (ROK) after Nov. 15, 2021 will be subject to the same COVID-19 protocols as fully vaccinated Korean citizens, such as exemption from quarantine and social distancing, pursuant to the ROK–ROS Travel Bubble Agreement.**

1. Arrival Guidelines

- Upon arrival to the Republic of Korea, arriving persons **must get a PCR test (paid by the person getting tested, standby at accommodation) on their first day of arrival at Incheon Airport COVID-19 Testing Center (prior reservation required), install the self-diagnosis app,*** and shall be exempt from quarantine and free to travel after verifying the negative test result.

* Download the app by scanning the QR code on the right.

Android: Google Play

iOS: App Store

- Persons with positive PCR test results upon arrival are immediately deemed ineligible for exemption from quarantine, and be subject to quarantine. Furthermore, persons categorized as having had close contact with confirmed cases or who refuse to install the self-diagnosis app may also be subject to quarantine.
- Health status must be entered every day using the self-diagnosis app during the entirety of domestic travel.
- **If the travel period is longer than eight days, you must visit a 6th/7th-day testing center* between the sixth and seventh day of travel where you must submit this information sheet and get a PCR test (paid by the person getting tested). You may be subject to quarantine in the event that the aforementioned test was not conducted during the health authorities' epidemiological investigation.**
- * Korean Disease Control and Prevention Agency (KCDC) official website > Announcements > "6th/7th-day Testing Centers"
- International tourists must observe COVID-19 protocols and diligently comply with the measures of health authorities.
- If documents submitted (presented) upon arrival, such as negative PCR test result and vaccination certificate, contain false information or are forged, you may be criminally punished according to the Criminal Act of the Republic of Korea, and may be denied arrival or be forcefully deported according to the Immigration Act of the Republic of Korea.
- International tourists must observe their travel period.

2. Method for Checking Vaccinated Persons and Efficacy

You can **check the vaccination status of your counterpart** by installing the **COOV app** on your mobile device and **scanning QR code (app) on the counterpart's mobile device with "counterpart certification."** Pursuant to the **ROK–ROS Travel Bubble Agreement**, persons who received full vaccination for COVID-19 in the Republic of Singapore entering the Republic of Korea will be **entitled to the same rights as vaccinated Koreans** when using public facilities (e.g. restaurants, cafes) and public institutions.
